

2022-2026

CAREER DEVELOPMENT EVENT HANDBOOK

**TEXAS FFA ASSOCIATION
614 EAST 12TH STREET
AUSTIN, TX 78701**

Section 25.5 General CDE Rules

1. Each participant must be a bona fide dues-paying FFA member in good standing with the local chapter, state association and the national organization, be listed on the state roster, AND be under the age of 21 at the time of the national FFA event. All entries shall be verified upon entry to state event. Substitutes must be submitted to event providers to be verified by the Texas FFA Association.
2. Each participant must be enrolled in an agriculture, food and natural resources course at the time of the event or have completed an agriculture, food and natural resources course during the current academic year. Enrollment will be verified in case of a protest regarding eligibility. All national qualifying teams will verify enrollment prior to certification for national competition.
3. A member who has participated previously in a career development event at the national level shall NOT be eligible for the same event (excluding tractor technician, forestry and range). A student who has previously participated on a state-winning team shall not be eligible for future competition in that CDE in a state contest or in a contest that leads to qualification for the state competition in that event. **See specific rules for each contest.**
4. If a student who is ineligible for any reason, including, but not limited to academic failure, FFA membership, courses enrollment or participation on a national or state winning team, the student's score shall be nullified and the team's score shall be recalculated. If the event is a team activity or includes a team activity, the team with the ineligible team member shall be disqualified. If it is determined that a teacher or other school representative has knowingly entered an ineligible student, the provisions of general rule 21 shall be applied.
5. Area coordinators will certify all teams eligible to participate in the state events.
6. A chapter may enter one team in each event at the appropriate level: area for elimination events and state for events for which there is not a qualifying event. **In case of exceptions, contest rules will take precedence over the general rules.**
7. Team members must be from the same chapter. If a four-member team is entered, in events where allowed, the three highest individual scores are used to calculate the team score, with the exception of Food Science in which scores from all four members will be used. However, all four members are eligible for individual awards. The fourth member of a team placing first shall not be eligible for the same event in future years. Two-member teams are not eligible for team recognition or qualification for state competition. Teams that have more active participants than are allowed in a given event shall be disqualified once it is verified by event officials that the additional members are from the chapter in question. Event providers may opt to create a separate group rotation for alternates and tabulate at-large alternate scores.
8. Each event will be limited to a minimum of five teams or a maximum of 15 percent or major fraction thereof of the number of fully eligible teams participating with exception of the following:
 - (1) Agricultural Sales - limited to three teams from each area
 - (2) Agricultural Technology and Mechanical Systems - limited to three teams from each area
 - (3) Tractor Technician - limited to three teams from each area

With the exception of Agricultural Technology and Mechanical Systems, teams with the same team score for the last qualifying state berth shall be certified for state competition by the area

coordinators. **In CDE's in which an area has not reached its maximum number for qualification, teams from other areas may be certified for state competitions.** At large qualifiers will be based upon total number of non-qualifying teams in an area compared to the places that are available to reach the number that an event provider has determined to be a maximum capacity for the facility.

9. In addition to AT-LARGE Qualifiers for state level Career Development Events, beginning for the 2022 State Events, area events held at the same location, on the same date, will have Wildcard State Qualifying teams for the state level events.
 - a. **Wildcard** is defined as the *final state qualifying position*. State qualifiers are defined as the top 5 or top 15% (whichever total is greater) of full teams competing in each contest, unless individual contest rules specify otherwise.
 - b. Wildcard qualifiers will advance to the state event based on the highest scores competing, regardless of the area they are from.
 - I. EX: 4 Areas compete in an area CDE contest (same date/location). The final state qualifying position (wildcard) from each of these Areas would become open state qualifications. The 4 open positions would be filled by the next 4 highest scores of the entire contest, regardless of area affiliation.
 - c. **Wildcard Qualifiers will not increase the number of teams competing at the state level.**
 - d. The state CDE chairman will be responsible for working with Area Coordinators and the Student Recognition and Scholarship Coordinator to designate state advancing teams.
10. There is no limit on the number of teams from each area that may participate in the following events: agricultural communications, agronomy, cotton, environmental and natural resources, food tech, forage evaluation, marketing plan and plant identification.
11. Students may use their notes made during the event for all events in which questions will be asked concerning the classes. No notes may be used in the written exams.
12. Scoring and tabulating are completed as quickly as possible in order that results can be announced and awards presented to winning teams. Announced results will not be official until 5:00 p.m. the second working day following the event. Incorrect results will be corrected and the verified state winner will represent Texas in national competition. Individual scores by team members will be made available on the day of the event and/or posted on judgingcard.com. Awards will be presented as results are announced. Plaques and banners will be ordered based on the previous year's participation numbers. Ten teams will receive plaques or banners in events in which participation exceeds ten entries. In other events, the number of awards shall be the number of teams entered, with additional awards ordered as needed and mailed if necessary. Official FFA jackets are required for pictures to be published in the Texas FFA News Online.
13. The State CDE Chairman shall appoint scoring monitors for each event and provide a list of monitors to the event site general superintendent. Scoring monitors shall examine scores and determine if any wide-spread aberration exists. Scores shall not be announced until verified by a scoring monitor.
14. Dress code for CDE participation is official FFA dress (for events requiring official dress) or closed-toed shoes, full length pants or slacks, collared shirts with sleeves with the exception of Veterinary Science and Food Science (see contest rules for specific dress code requirements). The only logos permissible on shirts are clothing brand, school or organizational logos. (Clothing brands logos may not promote alcohol, tobacco or any other brand not consistent with the ideals and principles of the

Texas FFA). Shirt collars must be full, folded collars. Capri-type pants shall be deemed to be shorts, not pants or slacks. Contestants not in dress code compliance shall be given an opportunity to remedy the non-compliant apparel. Contestants found in the contest in violation of the dress code shall be disqualified. A teacher committee appointed by the state CDE committee chair shall enforce dress code standards.

15. Individual contestants are responsible for providing accurate scoring information on each scan sheet including team number. Contest officials will not correct, enter or change scan sheet marks or errors. Individual scores will not be tabulated without the correct team number.
16. Neither team advisors nor team members of a state qualifying team are to visit the State CDE site for an event for which they have qualified. The intent of this rule is to prohibit teams from gaining a possible competitive advantage from being at the facility where contest animals or materials are housed. This prohibition begins on the day following area events hosted on that site. Violation will result in disqualification. Competing onsite as a bona fide 4-H member does not constitute violation of this rule.
17. Teams arriving after the contest begins will be permitted to participate at the stage of the contest upon their arrival after dress code, clipboards, and other clipboard materials have been checked. The participants will NOT be permitted to go back and make up any part of the contest they missed due to their late arrival.
18. Contestants will be sorted by the provider into groups which do not include members from the same team. Leaving the assigned group to join a group not assigned may result in disqualification. Contestants who leave the assigned group to join a fellow team member shall be disqualified along with the team member whose group was joined as a result of the unauthorized move.
19. Any communication, verbal or nonverbal, between participants during an event will be sufficient cause to eliminate the team. Communication devices (cell phone, tablets, smart watches, fitness trackers, etc.) shall NOT be allowed in the possession of the contestant during the duration of the contest. Programmable calculators will not be allowed. Violators shall be disqualified.
20. Students may not bring pictures, printed material, or any items that have not been issued or authorized. Where non-programmable calculators are permitted (see individual events), the memory must be clear before entering the event location. **Team members must provide their own *clear, translucent, plastic clipboard. Clipboards should be: free of all current or recycled label contest stickers; must be sticker free (excluding school logos, which were applied when the clipboard was manufactured), ruler free, and/or clean folder with the following items: scan sheet, and/or copy of the scan sheet, optional Texas FFA CDE drop sheet, and/or two sheets of lined or unlined blank paper.** A teacher committee will be responsible for ensuring compliance of this rule. Violation of these rules once an event has started will result in team disqualification. Students may not bring a magnifying glass. Magnifying glasses of the same magnification will be supplied by the provider for contests when necessary.
21. Contestants will be given a 10-minutes period at the end of each event to complete their scantron. The section leaders will call for scan sheets. Once scan sheets are submitted to a section leader, they will not be returned to the student.
22. All site providers will keep scan sheets for 48 hours following the appeal deadline.

23. During any event, students are not permitted to leave the event area unless accompanied by an event official. Event materials are not to be taken from the site.
24. For students who require an ADA Accommodation(s), teachers should complete the Accommodations Form found on the Texas FFA Website not less than 14 days before an event or immediately after state advancements are designated. Requests for special consideration should be made to the will be determined on a case-by-case basis. Assistance will be provided by a contest official and shall not constitute an advantage for that student or a disadvantage for other contestants. Additional time cannot be provided for completion of events.
25. If any cause for disqualification is considered a willful act of defiance and the act has the approval of the teacher, the school the student represents will be barred from participation in state events until reinstated by the state executive board. Any advisor found guilty of willfully entering ineligible members in any FFA event will have the school where he/she serves barred from participation until reinstated by the state executive board.
26. Teachers are expected to maintain the highest standards of professionalism, and students should adhere to the highest standards of sportsmanship and integrity. Faculty member/ contest superintendents may ask teachers to leave a contest area if the code of professionalism is broken. Students who violate the tenets of sportsmanship during an event may be removed by a facility event superintendent or the general contest superintendent.
27. General and contest superintendents, assistants, and section leaders will exercise every effort to enforce all contest rules. Event superintendents shall notify the general superintendent for that event site of all disqualifications and the circumstances surrounding incidents meriting disqualification. The state FFA office shall be notified of all such disqualifications.
28. Institutional providers will be responsible for selecting qualified personnel for conducting each event.
29. ENTRY FEE: The entry fee is \$60 per team; except Agricultural Mechanics which is \$90 per team. All registration is electronic via <http://www.judgingcard.com>. Entry fees must be paid in accordance to state FFA policies regarding payment of entries and payment policies of the events entry management provider. No refund can be made for teams which do not participate. Entries not made on [judgingcard.com](http://www.judgingcard.com) on or before the deadline established by the event providers risk disqualification or may be charged a late fee. If the event qualification dates do not allow for compliance to established timelines, providers shall accept these entries and waive late fees. Teachers must notify providers of such circumstances.

CONFLICT RESOLUTION

1. Appeals concerning interpretation and enforcement of rules shall be handled directly by the event site general superintendent. Appeals concerning district and area standings for recognition and awards shall be resolved by officials at the corresponding levels of competition.
2. The state CDE process is a tournament concept that begins at the district level and culminates at the state event. Unresolved district-level disputes concerning qualification for area competition may be appealed to the respective area executive committee only after the district committee has heard and ruled on the matter in question. Teachers may request a state level review of any such ruling. The state executive committee shall overturn only those decisions that are ruled to be arbitrary or in conflict with state policy.

3. Appeals of area-level decisions concerning state qualification or state event decisions must be filed in writing with the Texas FFA Association executive director no later than 5:00 p.m. on the working day following the decision under appeal. All appeals shall be considered by the executive board.
4. Persons whose judgment may be influenced by a vested interest or a pre-existing relationship that may impair their ability to be fair and impartial must excuse themselves from all deliberations concerning appeals. Subjective qualitative judgments inherent in evaluating event performances may not be appealed.

Texas FFA Association Inclement Weather Policy:

Inclement Weather

For state events, the state executive director shall work proactively with providers to assess potential weather and road hazards which could create travel risks for students and teachers. Should inclement weather pose a potential travel risk for groups from any part of the state, the executive director shall consult the state executive board and appropriate experts (such as but not limited to National Weather Service forecasters) to assess potential hazards and consider options for amending event start times or participation schedules to facilitate safer travels, event postponement or cancellation. The Texas FFA Association shall make student safety the top priority in all such decisions.

If possible, the executive director or his or her designee shall notify teachers via e-mail and/or the emergency text messaging system of any impending event decisions regarding inclement weather.

District and area associations are to work with their respective executive committees in assessing weather-related travel risks. The state executive director shall work with area event coordinators in adjusting state entry and material submission deadlines for area events postponed due to inclement weather.

Lightning Safety

Lightning may be the most frequently encountered severe storm hazard endangering physically active people each year. Millions of lightning flashes strike the ground annually in the United States, causing nearly 100 deaths and 400 injuries. Three quarters of all lightning casualties occur between May and September, and nearly four fifths occur between 10:00 am and 7:00 pm, which coincides with the hours for most career development events held in field conditions.

Providers should postpone or suspend activity if a thunderstorm appears imminent before or during an activity or contest (irrespective of whether lightning is seen or thunder heard) until the hazard has passed. Signs of imminent thunderstorm activity are darkening clouds, high winds, and thunder or lightning activity. Student safety must be the first priority. If the provider deems it necessary to collect and hold scan sheets, students must be moved to a safe location before such collections are conducted.

Recommendations for Lightning Safety

1. Establish a chain of command that identifies who is to make the call to remove individuals from the field.
2. Name a designated weather watcher (A person who actively looks for the signs of threatening weather and notifies the chain of command if severe weather becomes dangerous). Lightning meters are recommended but not required. Most athletic departments own these meters.

3. Have a means of monitoring local weather forecasts and warnings.
4. Designate a safe shelter for each venue that can accommodate the anticipated number of contestants. See examples below.
5. Use the Flash-to-Bang count to determine when to go to safety. By the time the flash-to-bang count approaches thirty seconds all individuals should be already inside a safe structure. See method of determining Flash-to-Bang count below.
6. Once activities have been suspended, wait at least thirty minutes following the last sound of thunder or lightning flash prior to resuming an activity or returning outdoors.
7. Avoid being the highest point in an open field, in contact with, or proximity to the highest point, as well as being on the open water. Do not take shelter under or near trees, flagpoles, or light poles.
8. Assume that lightning safe position (crouched on the ground weight on the balls of the feet, feet together, head lowered, and ears covered) for individuals who feel their hair stand on end, skin tingle, or hear "crackling" noises. Do not lie flat on the ground.
9. Observe the following basic first aid procedures in managing victims of a lightning strike:
Activate local EMS
 - Lightning victims do not "carry a charge" and are safe to touch.
 - If necessary, move the victim with care to a safer location.
 - Evaluate airway, breathing, and circulation, and begin CPR if necessary.
 - Evaluate and treat for hypothermia, shock, fractures, and/or burns.
10. All individuals have the right to leave a career development event site in order to seek a safe structure if the person feels in danger of impending lightning activity, without fear of repercussions or penalty from anyone.

Definitions

Safe Shelter:

1. A safe location is any substantial, frequently inhabited building. The building should have four solid walls (not a dug out), electrical and telephone wiring, as well as plumbing, all of which aid in grounding a structure.
2. The secondary choice for a safer location from the lightning hazard is a fully enclosed vehicle, including a school bus, with a metal roof and the windows completely closed. It is important to not touch any part of the metal framework of the vehicle while inside it during ongoing thunderstorms.
3. It is not safe to shower, bathe, or talk on landline phones while inside of a safe shelter during thunderstorms (cell phones are considered safe).

Flash-to-Bang:

To use the flash-to-bang method, begin counting when sighting a lightning flash. Counting is stopped when the associated bang (thunder) is heard. Divide this count by five to determine the distance to the lightning flash (in miles). For example, a flash-to-bang count of thirty seconds equates to a distance of six miles. Lightning has struck from as far away as 10 miles from the storm center.

CDE TEAM CHART

Event	Team Members	Dress Code	Area Qualifying Event	National Qualifying Event?
Agronomy	3 or 4	Standard	No	Yes
Ag Communications	4	Official Dress	No	Yes
Agricultural Technology and Mechanical Systems	3 or 4	Standard	Yes – Max 3 teams per area	Yes
Agricultural Sales	4	Official Dress	YES – Max 3 teams per area	Yes
Applied Agricultural Engineering	3 or 4	Standard	YES - Max 3 teams per area	No
Cotton	3 or 4	Standard	No	No
Dairy Cattle Evaluation	3 or 4	Standard	Yes **	Yes
Entomology	3 or 4	Standard	Yes **	No
Environmental & Natural Res.	3 or 4	Standard	No	Yes
Farm Business Management	3 or 4	Official Dress	Yes **	Yes
Floriculture	3 or 4	Standard	Yes **	Yes
Food Science & Technology	4	Official Dress	No	Yes
Forage Evaluation	3 or 4	Standard	No	No
Forestry*	3 or 4	Standard	Yes **	Yes
Homesite Evaluation	3 or 4	Standard	Yes**	Yes
Horse Evaluation	3 or 4	Standard	Yes **	Yes
Land Evaluation	3 or 4	Standard	Yes **	Yes
Livestock Evaluation	3 or 4	Standard	Yes **	Yes
Marketing Plan	3	Official Dress	No	Yes
Meats Evaluation	3 or 4	Standard	Yes **	Yes
Milk Quality and Products	3 or 4	Standard	Yes **	Yes
Nursery/Landscape	3 or 4	Standard	Yes **	Yes
Poultry Evaluation	3 or 4	Standard	Yes **	Yes
Plant ID	3 or 4	Standard	No	No
Range	3 or 4	Standard	Yes **	Yes
Tractor Technician	3	Standard	Yes – Max 3 teams per area	No
Vet Technology	3 or 4	OD or Medical Scrubs according to event rules	Yes **	Yes
Wool	3 or 4	Standard	Yes **	Yes
Wildlife & Recreation	3 or 4	Standard	Yes **	No
